1. FIB #74 Good Looks in Votes

查看原题 >

It is tempting to try to prove that good looks win votes, and many academics have tried. The ~~idea~~ (答案: difficulty) is that beauty is in the eye of the ~~people~~ (答案: beholder) , and you cannot behold a politician's face without a veil of extraneous prejudice getting in the way. Does George Bush possess a disarming grin, or a facetious ~~smell~~ (答案: smirk) ? It's hard to find anyone who can look at the president without assessing him politically as well as physically (答案: physically) .

Choices :

- principle, idea, difficulty, concept
- people, beholder, builder, audience
- smell, complexion, smirk, binge
- culturally, physically, economically, individually

解析：

1. difficulty

根据原文：The__is that beauty is in the eye of the beholder , and you cannot behold a politician’s face without a veil of extraneous prejudice getting in the way, that 从句是在具体解释空格的内容，不带偏见去评论政治人物是很难的，因此选择 difficulty。这里说的是，困难在于，美在旁观者的眼中，如果没有外来偏见的面纱挡住你的去路，你就看不见政治家的脸。其他选项：principle 原则；idea 想法；concept 概念，在语意上都不合适。

解题思路：单句理解

2. beholder

主要考察固定搭配：beauty is in the eye of the beholder-情人眼里出西施。其他选项：people 人们；builder 建设者；audience 观众，因此都不合适。

解题思路：固定搭配；单句理解

3. smirk

根据原文：Does George Bush possess a disarming grin, or a facetious ____? facetious的意思是“不问场合耍聪明的”，属于有消极含义的形容词，因此后面需要接消极的名词，因此选择 smirk-傻笑。这里说的是乔治·布什有没有一个令人放松的笑容，或者一个滑稽的笑容？其他选项：smell 气味；complexion 肤色；binge 大吃大喝，明显都不通。

解题思路：单句理解

4. physically

根据原文：It’s hard to find anyone who can look at the president without assessing him politically as well as ___, 根据前文讲述观众会评判竞选人的外貌，因此选择 physically-身体上地。这里说的是，很难找到一个人能够在看待总统时不对他进行政治和身体上的评估。其他选项：culturally 文化地；economically 经济地；individually 个人地，因此都不合适。

解题思路：上下文理解

评分详情 1/4分 查看翻译 答题用时: 01:46

2. FIB #50 Underground Houses

查看原题 >

Underground houses have many advantages over conventional housing. Unlike conventional homes, they can be built on ✓steep (答案: steep) ? surfaces and can maximize space in small areas by going below the surface.

In addition, the materials excavated in construction can be used in the building process. Underground houses have less surface area so fewer building materials are used, and ✗heating (答案: maintenance) ? costs are lower. They are also wind, fire, and earthquake resistant, providing a secure and safe environment in extreme weather.

One of the greatest benefits of underground living is energy ✓efficiency (答案: efficiency) ? . The earth's subsurface temperature remains stable, so underground dwellings benefit from geothermal mass and heat exchange, staying cool in the summer and warm in the winter. This saves around 80% in energy costs. By ✗initiating (答案: incorporating) ? solar design this energy bill ✓can be reduced (答案: can be reduced) ? to zero, providing hot water and heat to the home all year round.

Choices :

- 1. geometric, flat, overhead, steep
- 2. heating, buoyancy, maintenance, facility
- 3. ratio, consistency, efficiency, renewal
- 4. intriguing, initiating, incorporating, inventing
- 5. has reduced, can be reduced, can reduce, has been reduced

解析：

1. steep

根据原文：Unlike conventional homes, they can be built on___surfaces，跟地面上建房子的情况不一样，说明并不是很平缓的，适宜建房子的地形，因此选择 steep-陡峭的。这里说的是：与传统住宅不同，它们可以建在陡峭的地面上。其他选项：geometric 几何的; flat 平的; overhead 头上方的，均不符合文意和逻辑。

解题思路：单句理解

2. maintenance

根据原文：Underground houses have less surface area so fewer building materials are used, and ____ costs are lower. 因为房屋面积小，建成后的维修花费自然也不高，因此选择 maintenance-保养维护。这里说的是：地下房屋的表面积较小，因此使用的建筑材料较少，维护成本也较低。其他选项：heating 加热; buoyancy 活跃、浮力; facility 设施，在语意上都不合适。

解题思路：单句理解

3. efficiency

根据原文：One of the greatest benefits of underground living is energy ____结合下文This saves around 80% in energy costs，这将节省约80%的能源消耗，可以判断此空应该填入efficiency 效率。其他选项中，ratio 比率，consistency 浓度，renewal 更新，都无法说通。

解题思路：上下文理解

4. incorporating

根据原文：By___solar design...providing hot water and heat to the home all year round，有了太阳能的设计，才会达到后面提供热水的结果，因此选择 incorporating-包含纳入。这里说的是：把太阳能设计纳入进来...会提供全年的热水和温度。其他选项：intriguing 引发，密谋; initiating 发起，创始; inventing 发明，因此都不合适。

解题思路：动宾搭配；单句理解

5. can be reduced

根据原文：By incorporating solar design, this energy bill___to zero, providing hot water and heat to the home all year round。主语是能源账单，它与动词-减少之间的关系是被动关系，而且这个太阳能节能设计是在做假设，通过做...,会达到某种结果，并没有指出这件事情是已经完成了的，因此排除现在完成时的选项，选择 can be reduced，这里说的是：通过太阳能设计，这种能源账单可以被减少到零，全年为家庭提供热水和热量。其他选项：has reduced 现在完成时的主动表达; can reduce 表示主动; has been reduced 现在完成时态的被动表达，因此都不合适。

解题思路：时态；被动语态；单句理解

你的答案：

steep, heating, efficiency, initiating, can be reduced

评分详情 3/5分 查看翻译 答题用时: 02:02

3. FIB #3 Intelligence Comparison

查看原题 >

of intelligence. Comparing [✔ across](#) (答案: across)  species is not as simple as generally expected. An elephant will have a larger brain than a human has simply because it is a large beast. [✔ Instead](#) (答案: Instead)  , we use the Cephalization index, which compares the size of an animal's brain with the size of its body. Based on the Cephalization index, the brightest animals on the planet are humans, [✔ followed](#) (答案: followed)  by great apes, porpoises and elephants. As a general [✗ principle](#) (答案: rule)  , animals that hunt for a living (like canines) are smarter than strict vegetarians (you don't need much intelligence to outsmart a leaf of lettuce). Animals that live in social groups are always smarter and have larger EQ's than solitary animals.

Choices :

- 1. can, do, did, does
- 2. across, to, through, with
- 3. Then, Instead, Because, Otherwise
- 4. followed, follows, follow, following
- 5. theory, principal, rule, principle

解析：

1. does

根据原文：Psychologists have a technique for looking at intelligence that__not require the cooperation of the animal involved, that 从句修饰的是单数名词 technique，又因为全篇的时态大多是一般现在时，因此选择 does。这里说的是：心理学家有一种观察智力的方法，不需要相关动物的配合。其它选项：can 能够，明显说不通，因为没有“不能需要动物的配合”的说法；do 是原型，不匹配单数名词主语；did 是过去时态，时态不合适。

解题思路:主谓一致；时态；单句理解

2. across

根据原文：Comparing ____ species is not as simple as generally expected. An elephant will have a larger brain than a human has simply because it is a large beast，大象和人类是不同的物种，是一种横向比较，因此选择 across 来表达“跨物种”的意思。这里说的是：不同物种之间的比较并不是那么简单，大象的大脑比人类的大脑要大，因为它是一头巨大的野兽。其它选项：to ; through; with 在语意上都不合适。

解题思路: 单句理解

3. instead

根据原文： ___, we use the Cephalization index, which compare the size of an animal's brain to the size of its body_ 我们使用的是头部指数，它将动物的大脑大小与其身体大小进行比较。这里使用的比较方法与前面形成对比，因此选择转折关系的 instead-相反。其它选项：then 然后；because 因为；otherwise 否则（一般后面的情况还没有发生），因此都不合适。

解题思路: 单句理解

4. followed

根据原文：Based on the Cephalization index, the brightest animals on the planet are humans, ___ by great apes, porpoises and elephants，主干部分结构完整，因此选择分词形式作为修饰，由humans跟follow之间是被动的关系（人类被类人猿跟着），因此选择 followed。这里说的是：根据头化指数，地球上最聪明的动物是人类，其次是类人猿、江豚和大象。其它选项：follows 和 follow 都是谓动词形式，不符合；following 是现在分词表示主动，因此也不合适。

解题思路: 过去分词；单句理解

5. rule

主要考察固定搭配：as a general rule-一般来说。根据原文：As a general rule , animals that hunt for a living (like canines) are smarter than strict vegetarians这里说的是：一般来说，以狩猎为生的动物（如犬科动物）比严格的素食者更聪明。其它选项：theory 理论; principal 校长; principle 法则，因此都不合适。

解题思路: 固定搭配；单句理解

你的答案：

do, across, Instead, followed, principle

[评分详情 3/5分](#) [查看翻译](#) 答题用时: 03:18

4. FIB #70 Mini Helicopter

[查看原题 >](#)

A mini helicopter modelled on flying tree seeds could soon be flying overhead. Evan Ulrich and colleagues at the University of Maryland in College Park [✗ turned for](#) (答案: turned to)  the biological world for inspiration to build a scaled-down helicopter that could mimic the properties of full-size aircraft. The complex [✔ design](#) (答案: design)  of full-size helicopters gets less efficient when shrunk, meaning that standard mini helicopters expend most of their power simply fighting to stay stable in the air. The researchers realized that a simpler aircraft designed to stay stable passively would use much less power and reduce manufacturing costs to boot.

thanks to a process called autorotation. By analyzing the behavior of the samara with high-speed cameras, Ulrich and his team were able to copy its design.

Choices :

- 1. turned to, turned for, turned in, turned off
- 2. overhaul, gauge, imagination, design
- 3. is beating, was beaten, had beaten, beaten
- 4. had allowed, allowed, allows, will allow
- 5. spin, fluctuate, drift, fly

解析：

1. turned to

根据原文：Evan Ulrich and colleagues___the biological world for inspiration to build a scaled-down helicopter，根据 for inspiration 可以知道，他们在自然界寻找灵感，因此选择 turned to-求助于。这里说的是，埃文·乌尔里希和他的同事们转向生物界寻求建造一架小型直升机的灵感。其他选项：turned on 打开; turned in 朝内拐; turned off 关闭; 明显都无法说通。

解题思路：单句理解

2. design

根据原文：The___ of full-size helicopters gets less efficient when shrunk，这里讨论关于老飞机性能的问题，由于涉及到性能，必然会有关于老版飞机的设计问题，因此选择 design-设计。这里说的是：全尺寸直升机的复杂设计在收缩时效率较低。其他选项：overhaul 检修; gauge 仪表; imagination 想象，因此都不合适。

解题思路：上下文理解

3. had beaten

根据原文：It turns out that nature ___ them to it，这里 beat sb. to it 是固定搭配，意思是“抢在某人之前；捷足先登”。这里大家考虑到全文主要是现在时，可能很容易选成 is beating。但要注意的是这个空需要联系上文，上句研究人员意识到，用的是 realized，而他们意识到的内容，本句说的是大自然早就了解到了（beat sb. to it），所以大自然的这个动作发生在 realized 之前，就是过去的过去，只有 had beaten。其他选项，beaten 是动词 beat 的过去分词形式，不能单独作谓语；was beaten 则属于被动语态，不符合逻辑。

解题思路：时态；单句理解

4. allows

根据原文：The seeds of trees have a single-blade structure that___them to fly far away and drift safely to the ground，可以判断 that 引导一个定语从句修饰名词 structure，而该空应该填入一个动词作为此定语从句的谓语。备选项有：had allowed 允许（过去完成时）；allowed 允许（一般过去时），allows 允许（一般现在时）；will allow 将允许（将来时）。容易判断原句为一般现在时态，所以只有 allows 符合要求。

解题思路：时态

5. spin

根据原文：These seeds need no engine to___through the air, thanks to a process called autorotation，autorotation 意思是自旋，因此选择 spin-旋转。这里说的是：由于一种叫做自转的过程，这些种子不需要发动机在空气中旋转。其他选项：fluctuate 波动; drift 漂流; fly 飞，因此都不合适。

解题思路：单句理解

你的答案：

turned for, design, had beaten, allows, spin

评分详情 4/5分 查看翻译 答题用时: 02:47

5. FIB #290 Power Mix

[查看原题 >](#)

Imagine a time in the not too distant future when your power comes from a seamless mix of renewable energy and traditional sources. It is delivered by a grid that manages thousands of windmills and hundreds of thousands of customers. Computer ✗ controlling (答案: controlled) ? , the grid is able to manage instant variations in supply and demand and provides a real time power balance. Far more complex than anything ✓ in (答案: in) ? existence today, it is called a smart grid. This technology is a new frontier in power supply and seen as a green solution to current outdated management systems. When introduced smart grids will result in energy savings and will allow consumers a choice in their electricity charges and to be able to select the cheapest time ✓ slots (答案: slots) ? . The difficulty for the energy industry is that smart grids ✓ do not exist (答案: do not exist) ? in reality and the power companies cannot experiment with existing supplies. Without an actual grid to conduct research on Professor Wu has had to design a simulated laboratory including input from theoretical wind generators and solar panels to feed into a constantly operating system. For an authentic approach researchers built various types of equipment failures ✓ into (答案: into) ? the grid to test the system. And it works.

- 3. cuts, pins, points, slots
- 4. does not exist, do not exist, are not existing, not exist
- 5. into, of, onto, above

解析：

1.controlled

【思路】Computer ____, the grid is able to manage instant variations in supply and demand and provides a real time power balance. 首先the grid is...是主句，空格所在结构只能做为主句的从属，它其实是一个独立主格的结构。独立主格的逻辑主语和主句的主语并不需要保持一致。因为它不是句子，动词只能根据和主语的主被动关系，选择对应的非谓语动词形式。观察备选项，其包含了 control 的谓语与其非谓语形式，由于从属结构和主句间没有连词，因此不能选择 has controlled 和 controls，否则就是逗号连接两个主句，不符合语法规范；如果选择 controlling，则构成 Computer controlling 独立主格结构，但是由于 control 是及物动词，这个独立主格结构中还缺少 controlling 的宾语，所以不符合要求；只有 controlled 符合要求，和 computer 构成类似于 man-made “人造的”和 money-driven “金钱驱动的”这种结构，意思是“由电脑控制的”，形成对句子主语 the grid 的修饰。

【翻译】由计算机控制，电网能够管理供应和需求的即时变化，并提供实时的电力平衡。

【考点】非谓语动词

2.in

【思路】Far more complex than anything ____existence today, it is called a smart grid. 首先，本句大意为：这叫做智慧电网，其比现在 存在的任何东西都要复杂。因为“智慧”，可以推测出是要表达“比现今存在的任何东西都要复杂”，又根据 anything （）existence=“存在的一切东西”，当existence表“存在的+某物”，只能搭配介词in，可引申为表示“处于某种状态之中”。其他选项：with 常常表达“伴随”或“手段”，将这种意义与 existence 合并，显然说不通，同理可排除 without 。而of与名词搭配时，常表示所属关系，例如 the existence of people 单词顺序也跟本句不一致，同样不符合要求，故而排除。

【翻译】它比今天存在的任何东西都要复杂得多，被称为智能电网。

【考点】单句理解+介词辨析

3.slots

【思路】When introduced smart grids will result in energy savings and will allow consumers to be able to select the cheapest time____. 首先分析句意：有了智慧电网，消费者可以选择最便宜的“时间”。又根据本句前半句谈到“消费者在电费上有了选择”，可知后半句空格所在部分应表达类似“最便宜用电时间”的意思。其次，观察备选项，首先排除 cuts “削减”和 pins “别针”，代入后句意不通顺。接下来比对 points “点”和 slots “时段”。结合生活，用电分为峰谷时段，不可能说存在最便宜的时间点，只有时间段，因此选择slots。

【翻译】当引入智能电网时，将导致能源节约，并允许消费者选择他们的电费，并能够选择最便宜的时间。

【考点】单句理解+词意辨析

4.do not exist

【思路】The difficulty for the energy industry is that smart grids__in reality and the power companies cannot experiment with existing supplies. 分析句子结构，空格位于 that 从句之中；同时结合备选项，可知 that 从句缺少谓语动词，首先排除 not exist。又主语 smart grids 为复数，因此排除 does not exist 。而由于 exist 表状态，不能用于进行时，因而排除 are not existing，最后确定选择 do not exist。

【翻译】能源行业面临的困难是，智能电网在现实中并不存在，电力公司无法对现有的供应进行试验。

【考点】主谓一致

5.into

【思路】For an authentic approach researchers built various types of equipment failures____the grid to test the system. 该句大意为：研究者们将不同类型的设备故障 电网中，以此来测试系统。分析其间逻辑，应是在电网中设置这些“故障”来测试系统，而选项均为介词，其应是与动词 build 搭配，表达类似“在某物中放入原先不存在的事物”的意思。选项中仅有 into 能表达“进入.....其中”，符合句意要求。其实，上一句的 feed into 也是这种用法。

【翻译】为了一种真实的方法，研究人员在电网中建立了各种类型的设备故障来测试系统。

【考点】单句理解+介词

你的答案：

controlling, in, slots, do not exist, into

评分详情 4/5分 查看翻译 答题用时: 02:37

6. MCM-R #52 History of Sleep

查看原题 >

September 2, 1752, was a great day in the history of sleep. That Wednesday evening, millions of British subjects in England and the colonies went peacefully to sleep and did not wake up until twelve days later. Behind this feat of narcoleptic prowess was not same revolutionary hypnotic technique or miraculous

Europe by eleven days—that is, September 2 in London was September 13 in Paris, Lisbon, and Berlin. The discrepancy had sprung from Britain's continued use of the Julian calendar, which had also been the official calendar of Europe from its invention by Julius Caesar (after whom it was named) in 45 B.C. until the decree of Pope Gregory XIII in 1582.

Caesar's calendar, which consisted of eleven months of 30 or 31 days and a 28-day February (extended to 29 days every fourth year), was actually quite accurate: it erred from the real solar calendar by only 11.5 minutes a year. After centuries, though, even a small inaccuracy like this adds up. By the sixteenth century, it had put the Julian calendar behind the solar one by 10 days.

In Europe, in 1582, Pope Gregory XIII ordered the advancement of the Julian calendar by 10 days and introduced a new corrective device to curb further error: century years such as 1700 or 1800 would no longer be counted as leap years, unless they were (like 1600 or 2000) divisible by 400.

Question :

What factors were involved in the disparity between the calendars of Britain and Europe in the 17th century ?

Choices :

- A) the provisions of the British Calendar Act of 1751
- B) Britain's continued use of the Julian calendar
- C) the accrual of very minor differences between the calendar used in Britain and real solar events
- D) the failure to include years divisible by four as leap years
- E) the decree of Pope Gregory XIII
- F) revolutionary ideas which had emerged from the West Indies
- G) Britain's use of a calendar consisting of twelve months rather than eleven

答案：
BCE

你的答案：

B, C, E

评分详情 3/3分 查看翻译 答题用时: 01:40

7. MCM-R #53 X-ray

查看原题 >

X-ray crystallography is the study of crystal structures through X-ray diffraction techniques. When an X-ray beam bombards a crystalline lattice in a given orientation, the beam is scattered in a definite manner characterized by the atomic structure of the lattice. This phenomenon, known as X-ray diffraction, occurs when the wavelength of X-rays and the interatomic distances in the lattice have the same order of magnitude. In 1912, the German scientist Max van Laue predicted that crystals exhibit diffraction qualities. Concurrently, W. Friedrich and P. Knipping created the first photographic diffraction patterns. A year later, Lawrence Bragg successfully analyzed the crystalline structures of potassium chloride and sodium chloride using X-ray crystallography, and developed a rudimentary treatment for X-ray/crystal interaction (Bragg's Law). Bragg's research provided a method to determine a number of simple crystal structures for the next 50 years. In the 1960s, the capabilities of X-ray crystallography were greatly improved by the incorporation of computer technology. Modern X-ray crystallography provides the most powerful and accurate method far determining single-crystal structures. Structures containing 100-200 atoms now can be analyzed on the order of 1-2 days, whereas before the 1960s a 20-atom structure required 1-2 years far analysis. Through X-ray crystallography the chemical structure of thousands of organic, inorganic, organometallic, and biological compounds are determined every year.

Question :

Which of the following factors are consistent with the theory of X-ray crystallography?

Choices :

- A) X-ray crystallization causes a reduction in the interatomic distances of wavelengths.
- B) X-rays are scattered according to the atomic structure of the crystal lattice.
- C) The analysis of chemical compounds was only possible after the development of computer technology.
- D) The process can be used to determine the chemical structure of biological compounds.
- E) X-rays will not diffract in crystalline substances.

答案：
BD

你的答案：

B, D

评分详情 2/2分 查看翻译 答题用时: 02:29

- 1) However, one general rule for all students is that the television seems to be more of a distraction than music or other background noise, so leave the TV off when you are reading or studying. Also, don't let yourself distracted by computer games, email, or internet surfing.
- 2) Some students say that they need complete quiet to read and study.
- 3) The point is, you should know the level of noise that is optimal for your own studying.
- 4) Others study best in crowded, noisy rooms because the noise actually helps them concentrate.

答案：
2, 4, 3, 1

你的答案：

3, 1, 2, 4

评分详情 2/3分 查看翻译 答题用时: 00:33

9. RO #300 GPS Tracking (GPS定位)

[查看原题](#) >

- 1) The collars transmitted each animal's position every four hours, for up to two years.
- 2) But in 2010 and 2011, Vanessa Hull of Michigan State University and her colleagues were given permission to attach GPS tracking collars to five pandas in the Wolong National Nature Reserve in China.
- 3) We know very little about wild pandas because they are so rare and live in almost impenetrable forest.
- 4) The team found that the home ranges of individual pandas overlapped and on a few occasions, two animals spent several weeks in close proximity.

答案：
3, 2, 1, 4

解析：

RO 顺口溜

我们很少知道，GPS（能够）定位，（并）传送，每只大熊猫。

找到对应词

我们很少知道【We know very little】，GPS（能够）定位【GPS tracking】，（并）传送【transmitted】，每只大熊猫【individual pandas】。

你的答案：

4, 3, 2, 1

评分详情 2/3分 查看翻译 答题用时: 00:47

10. FIBD&D #483 Martens' Diet

[查看原题](#) >

Studies of pine martens in Scotland have shown that the diet varies ✓ seasonally (答案: seasonally) ? with small mammals, berries (in late summer/autumn) and small birds being the main foods. Recent work on a plantation has shown that martens ✓ establish (答案: establish) ? their home ranges in areas dominated by forests and ✓ dense (答案: dense) ? shrubs. Within home ranges, martens utilize areas of grassy vegetation within the forest which are typically associated with Microtus voles, for which a strong selective ✓ preference (答案: preference) ? over other small mammals is shown.

Choices：

- 1) establish
- 2) lately
- 3) decision
- 4) seasonally
- 5) preference
- 6) dense
- 7) complicated

解析：

1. seasonally

【思路】“...the diet varies__with small mammals berries (in late summer/autumn) and small birds being the main foods.” 该空所在句子结构完整，需要填入状语成分，这里状语修饰动词 varies，所以应该选择副词，可选单词有：lately (最近), seasonally (季节性地)。vary with 表示“随...变化”，martens(貂)这种动物的饮食是会变化的，夏末是小型哺乳动物和浆果，那么可推断其他季节是捕食小型鸟类，其饮食是根据季节变化的，所以选择 seasonally。

【句意】它们的饮食随季节变化，小型哺乳动物、浆果（夏末/秋季）和小型鸟类是主要食物。

考试报名优惠 ¥2089

抢

【思路】“...martens__their home ranges in areas dominated by forests...” 该空所在成分谓语动词，可选单词只有：establish (建立)。填入空后，再次检查句意：貂在森林为主的地方建立了他们的栖息地，语义通畅，所以选择 establish。

【句意】貂在森林和...为主的地区建立了它们的栖息地。

【考点】上下文理解

3. dense

【思路】“...martens establish their home ranges in areas dominated by forests and__shrubs.”该空所在成分为修饰性成分，修饰shrubs 灌木，可选词性有形容词：dense (茂密的), complicated (复杂的)。complicated 是指事物有很多部分，所以很难理解，所以不适合修饰 shrubs，所以选择 dense。

【句意】貂在森林和茂密灌木为主的地区建立了它们的栖息地。

【考点】形容词+名词结构；上下文理解

4. preference

【思路】“...martens utilize areas of grassy vegetation within the forest which are typically associated with Microtus voles, for which a strong selective__over other small mammals is shown.” 该空所在成分为名词，前面有修饰成分 strong selective (强烈的选择性的)。可选单词有：decision (决定), preference (偏好)。这里考察固定搭配 a preference for A over B：相比B更偏好A。which 这里引导定语从句指代先行词 Microtus voles, for作为介词被提前了。前半句在说貂在它们的栖息地会利用草地植被来捕食，因为这些草地有很多的 voles (田鼠)，说明貂很偏爱田鼠作为食物。所以选择 preference。

【句意】貂利用森林中的草地植被，这通常与田鼠有关，对田鼠比其他小型哺乳动物表现出强烈的选择性偏好。

【考点】固定搭配；上下文理解

你的答案：

seasonally, establish, dense, preference
